

Hande Bengu

Fullstack .NET Developer | Seeking LIA Internship

+46 73 959 56 16 | handebengu@gmail.com | Akersberga, Stockholm | github.com/handechasacademy | linkedin.com/in/handebengu

PROFILE

I am seeking an LIA internship in fullstack .NET development. My research background has given me the ability to break down complex problems in a structured way, a strength I bring directly into my development work. I care about the details and delivering solutions that actually work.

Languages: English (C1) | Turkish (native) | Swedish (C1)

EDUCATION

Fullstack .NET Developer | Chas Academy, Stockholm SEP 2025 - JUN 2027 (ongoing)

- Student Representative for the Extended Fullstack .NET Developer program - acting as liaison between students and school management
- C#, OOP, ASP.NET Core, SQL Server, Entity Framework
- Agile teamwork using Git/GitHub and Scrum
- Includes development of a complete system solution for an external client

PhD in Endodontics | Gazi University, Ankara SEP 2019 - JUN 2025

- Advanced research methodology, data collection and analysis

Bachelor and Master in Dentistry | Baskent University, Ankara SEP 2014 - JUN 2019

- Licensed dentist

TECHNICAL SKILLS

- Languages: C#, JavaScript, SQL, HTML, CSS
- Frameworks & Platforms: .NET (ASP.NET Core), REST API, Entity Framework, Node.js
- Databases: SQL Server, SQLite
- Testing: xUnit, Jest
- Tools: Visual Studio, VS Code, Git/GitHub, CI/CD (GitHub Actions)
- Cloud & DevOps: Azure, Docker, Azure Key Vault (upcoming)
- Methodology: Agile/Scrum, OOP, TDD (upcoming), technical documentation

PROJECTS

AI Content Assistant | ASP.NET Core | Personal project

- Distributed microservices system with two APIs communicating via authenticated HTTP calls
- LLMProxyAPI proxies requests to HuggingFace LLM to break down goals into microsteps
- Learned: microservices architecture, service-to-service auth, custom exception middleware, ProblemDetails (RFC 7807)

GamesAPI | ASP.NET Core 9 | Personal project

- RESTful API for game library management with CRUD, JWT authentication and external RAWG database integration
- Implemented HybridCache, reducing response time from 652ms to 2-5ms (130x faster)
- Learned: JWT auth, caching strategy, pagination, external API integration

Library Database | C# & SQL | Personal project

- Book management system with C# integrated against SQL database
- Learned: database design, relationships, CRUD operations

Digital Portfolio | *HTML, CSS, JS | Personal project*

- Responsive website with REST API integration and asynchronous JS

handechasacademy.github.io/PortfolioPage/

Bank System | *C# | Group project, Chas Academy*

- Console application for banking operations built in a team
- Learned: OOP architecture, security protocols, Git workflow with Scrum

Timer Application | *HTML, CSS, JS | Group project, Chas Academy*

- Web-based timer focused on DOM manipulation and event handling
- Learned: JS component structure, collaboration on a shared codebase

More projects: github.com/handechasacademy

WORK EXPERIENCE

Volunteer | *Women in Tech Sweden Conference, Stockholm APR 2026*

- Managed entrance registration and badge distribution for conference attendees
- Guided and directed visitors on-site throughout the conference

Dental Nurse | *Hagernas Dental Clinic, Stockholm MAY 2024 - AUG 2025*

- Explained complex processes clearly to diverse audiences

Co-owner | *Light Dis Klinigi, Ankara APR 2021 - OCT 2023*

- Project management: resource planning and administrative systems for daily clinic operations
- Real-time troubleshooting and decision-making under time-critical conditions

Restaurant Staff | *Max Burgers AB, Stockholm JUL 2023 - AUG 2024*

- Effective teamwork and prioritization under high pressure
- Quick adaptation to new systems and routines

COURSES

- Programming 1 - C# (2024)
- Web Development 1 - HTML, CSS, JavaScript (2024)
- Swedish as a Second Language 1-3
- Unreal Engine Fundamentals by Epic Games - Coursera (2019)
